CAYUGA[®]
COMMUNITY COLLEGE

STATE UNIVERSITY OF NEW YORK

Think Big. Start Smart.

Take your dream to the next level at Cayuga.

Which degree is right for you?

It depends on your goals.

All degrees can be completed at Cayuga's Auburn campus. Several can also be completed at our Fulton campus or online. Some degree programs will require Fulton and online students to take certain courses at our Auburn location.

DEGREE PROGRAMS

If you plan to transfer to an upper-level college, we recommend that you pursue an Associate in Arts (A.A.) or Associate in Science (A.S.) degree at Cayuga:

At Cayuga You Matter

Give us two years, and Cayuga Community College will give you the educational foundation of a lifetime. A degree from Cayuga will qualify you to offer real value to prospective employers.

Or, if you plan to transfer to upper-level study, we can help you choose the ideal program to prepare for your future school and major.

Our classes are small and lively, and our instructors are dedicated professionals. They'll take the time to work with you and guide your progress. And you'll be saving money, to help continue your higher education beyond Cayuga.

Your Cayuga degree will be a foundation to build your dream on. We're ready to take that dream seriously.

Start Smart. Go Far.

Cayuga Community College is an ideal place to start toward your higher education goals.

More than one-third of Cayuga graduates transfer to upper-level institutions. Many go on to advanced degrees in law, medicine, and other professional and academic fields.

For goals like these, smart transfer planning includes academic advisement, career counseling, and financial aid planning. Cayuga offers these services and more—all to help you achieve a smooth, successful transfer experience.

If you think another institution is in your future, be sure to meet with our transfer counselor during your first year at Cayuga. We'll assist you in selecting your major, and we'll help you choose courses that will meet transfer requirements with maximum transferability of your credits.

Financial Aid

Cayuga is a smart investment.

College is a wise investment in your future. And when you consider Cayuga's low tuition—especially compared to four-year public and private colleges—the extra incentive of financial aid makes college even more accessible.

We'll explain how to apply for financial aid, and assist you in the process. Besides the federal and state aid that we can help you obtain, generous supporters have made it possible to offer nearly \$300,000 each year in scholarships to Cayuga students. Our website (www.cayuga-cc.edu/financial_aid/scholarships) provides the details.

If you're entering Cayuga in the fall, the application deadline for many types of financial aid is May 15. For some scholarships, your acceptance of enrollment at Cayuga is required by March 15.

www.cayuga-cc.edu/financial_aid/

"I was expecting a large collegiate building with many people being very busy. Not the comfy environment it really is."

Cozate Hunter II, Liberal Arts

"I chose Cayuga because I wasn't sure where I wanted to go or even what I wanted to go for and Cayuga offers a variety of programs in a small setting."

Michelle Turner, Liberal Arts

Online Study

Earn your degree or certificate online.

A convenient option for completing many Cayuga courses is online study. Many Cayuga degrees can be completed either through on-campus coursework, online study, or a combination of both. Through the SUNY Learning Network (SLN), you can take Cayuga courses virtually anytime and anywhere. In online courses, you get assignments, take part in discussions, and submit papers and projects to your instructor over the internet. Class sections are limited to 25 students. Cayuga's online courses run during fall and spring semesters, summer sessions, and the January intersession. Interested in exploring this option for college study?

Academic Support

Helping you to succeed academically.

From math and writing to term-paper planning, from note-taking to test-taking, from study groups to accommodative services, the Academic Support Center can help you achieve your personal best.

At both campuses, the ASC offers free, friendly services including one-on-one and small-group tutoring, study skills sessions, and resources to improve your writing. In the ASC, the Office of Disability Services provides note-takers, readers for tests, and other specialized support for students who qualify. Available technology includes text readers, magnification systems, and Braille equipment.

www.cayuga-cc.edu/academics/academic_support_center

Student Development

Our Student Development Center offers counseling and advisement at Auburn and Fulton, from choosing the right major to planning your elective courses for a successful transition to your career or upper-level school. The Student Development Center also offers

- Information on student clubs, organizations, events, and activities
- Leadership training
- Opportunities to work at Orientation and other special events
- Short-term crisis counseling
- Referrals for additional personal counseling

For Auburn campus students who choose to live away from home, the Student Development Center lists off-campus housing at www.cayuga-cc.edu/students/housing.php. The privately owned Lattimore Hall, with full-time residence and security staff, houses 97 students in 20 furnished suites with internet, cable, air conditioning, and off-street parking.

If your destination after college is immediate entry into your career, our Career Services office has resources that can help. From counseling on career possibilities that fit your interests and talents, to résumé guidance and interview practice, to contacts with alumni active in your area of interest. Career Services will help you turn your Cayuga degree into a real edge with:

- Individual career exploration/interest testing
- Access to job listings and job-search databases
- Assistance with résumé and interview preparation
- Links to alumni resources
- Special career fairs featuring workshops, mock interviews, and guest speakers

Student Life

Get involved, have fun, and lead.

Leadership is a plus in college and beyond, and student organizations offer opportunities to nurture it. You can run for office in the Student Government Organization, plan college events as a member of the Student Activities Board, and advance your career prospects through professional and academic honor societies. Students with diverse interests take part in a variety of campus clubs.

Consider campaigning to represent your fellow students for a year on the College's governing body. A member of the student population is elected annually to serve on the College Board of Trustees. While taking courses at the Auburn campus, you might try out for a stage play, work out in the fitness center, play sports in the gym, or hike among meadows of the nature trail.

"I'm very happy with my decision to attend Cayuga. I've been able to make good connections here and receive help when I need it. I'm very comfy here."

Marie Angus, Liberal Arts

Honors Study

The Honors Study option is designed for academically motivated students wishing to study the liberal arts and sciences and ultimately preparing to transfer to a four-year college. However, Honors Study can also be adapted to other curricula at Cayuga.

Honors Study is intended to provide an enhanced educational experience to those who wish to expand their experiences in and out of the classroom and stimulate their intellectual curiosity. Honors designated courses meet the liberal arts requirements but offer non-traditional ways of learning and require independent thinking, strong reading and writing skills, and a willingness to try new ways of learning.

Honors Study is not a degree program in itself, but rather an enhanced learning experience in that Honors students are intellectually challenged in a manner consistent with their ability and interests. Honors students graduate with an Associate in Arts or an Associate in Science in their chosen program of study, but with the distinction of an "Honors Study" degree.

High School Programs

Finish college faster.

There are many options for high school students to earn college credit and/or enhance their skills while finishing high school and get ahead for college.

Taking a Cayuga course online or on-campus is a great way to explore an area of interest—and to distinguish yourself to your college of choice.

If you are at least 16 years of age and meet prerequisites listed in the College catalog, you may enroll in any online credit course offered by Cayuga Community College.

www.cayuga-cc.edu/academics/high_school

Accelerated Studies

Get a degree by taking classes once a week.

Cayuga's Study on Sunday program lets you finish college faster, with an accelerated course schedule. And you can attend college full-time or part-time, by coming to campus just once a week. Cayuga offers several credit courses on Sundays during the fall and spring at the Auburn and Fulton campuses. These classes meet for just 3 hours each week. And most of the courses are accelerated, so you can finish them in just 8 weeks, instead of the usual 15-week semester.

Sunday classes are held mornings and afternoons, so you can take one or two courses in a session. To meet your course requirements, you will need to complete independent assignments during the week.

Sunday courses can help you fulfill degree requirements for various Cayuga degrees, including the AA in Liberal Arts: Humanities and Social Science. With this degree, you can transfer into many upper-level bachelor's degree programs-including accelerated programs offered on Cayuga's Auburn campus through Empire State College and Keuka College.

Sunday courses feature a learning environment that's lively and interactive. Instructors encourage student participation and small-group discussion. Cayuga's library and computer labs are open on Sunday, and financial aid is available for qualified applicants.

For more information visit: www.cayuga-cc.edu/academics/sundays.php

"At Cayuga I've learned to focus on where I want to go in life rather than stay stagnant."

Scott McManus, Liberal Arts

Athletics

Cayuga Spartans rock.

Cayuga's Spartans compete in the Mid-State Athletic Conference, with NJCAA Division III teams in men's and women's basketball, lacrosse, soccer, bowling, golf and women's volleyball. Our coaches are committed to developing student-athletes for success on and off the court and playing field.
